

# Houston Chapter BMW CCA

## Instructor Application Form for the Houston Chapter BMW CCA

The primary roles of the instructors are: to promote the **safety** and ongoing skills of the students both while driving and while being a spectator at any event; to set a good example of sportsman-like conduct both at the event and elsewhere; to provide concise instruction using ongoing enhanced communication skills; to link the training to improved driving on the street as well as sponsored events; and to offer entertainment and promote enjoyment of the students. We hold our instructors to high standards and strive to produce consistently competent, enthusiastic and dependable instructors in the Houston BMWCCA Chapter. Excellence in the instructor team is at the heart of any good driving program. Providing training to and requiring a minimum level of experience of those who have expressed the desire and have been chosen to become part of this team, is not only prudent on the part of the Houston-BMWCCA, it is necessary if the program is to continue to grow and continue to be respected as a professionally run program.
